MAKE PLAYGROUNDS NOT PRISONS

iDESIGNER

A tabletop game about the design process

EMBRACE FAILURE

Failure is often frowned upon in today's culture and sometimes even punished. Learn to embrace failure and all the new knowledge it brings.

CELEBRATE THE PROCESS

It doesn't matter if you win or lose, at the end of the game you'll come out better off either way.

A SOCIAL GAME FOR A SOCIAL CONTEXT

iDesigner is a cooperative game and you must work and coordinate well in a team to succeed. People are social creatures and our potential lies in strengthening our social abilities.

GET IN TOUCH WITH YOUR INNER CHILD

There are no ramifications for losing; by just playing you'll learn more about your peers, yourself and how important it is to just play!
